

GLOBAL G.A.P

GLOBAL G.A.P is an international Certification System comprising various standards and standardised compliance requirements, with the aim of advancing the principles of Good Agricultural Practice across a variety of Agricultural disciplines

MICROBIOLOGICAL PARAMETERS			
PARAMETER	UNIT	RISK	LIMIT
Heterotrophic plate count	Count per 1mL	Operational	≤1000cfu/1ml
Total coliforms	Count per 100ml	Operational	≤10cfu/100ml
Faecal coliforms	Count per 100ml	Acute	None found
E.coli	Count per 100ml	Acute	None found

All testing packages may be customized based on specific audit / industry pre-requisites as required
